Caring for Your Community Scholarship 2022

OVERVIEW AND PURPOSE

The Caring for Your Community Scholarship was created in 2015 as a result of the tragic shooting at Marysville-Pilchuck High School on October 24, 2014. The Foundation recognized a need for leaders specializing in mental health, counseling, social work, public safety, health and human services policy development, and non-profit management. Through this scholarship, the Foundation is committed to providing opportunities for Marysville School District students seeking higher education who have a desire to help those in need.

Our hope is that more individuals will seek work and opportunities in these fields and meet the growing demand for support in the local community and communities across the nation.

This scholarship was originally awarded by the MP Memorial Foundation, which has since merged with the Marysville School District Foundation to provide greater resources to Marysville School District students under the Marysville School District Foundation name. The Marysville School District Foundation proudly awards several annual scholarships to Marysville School District Students which are funded in part by donations from Marysville School District employees. The Caring for Your Community Scholarship is funded by resources separate from these employee donations, as all students in the Marysville School District are eligible to receive the Caring for Your Community Scholarship.
